As evidence, the following items are submitted herewith:

REMARKS

According to the Notice of Abandonment mailed on October 21, 2004, the above-referenced patent application has been deemed abandoned, because the corrected drawings as required in the Notice of Allowance mailed June 9, 2004, have not been received.

Applicants submit that the Notice of Abandonment is in error, because the corrected drawings were timely filed with the PTO on August 30, 2004. As evidenced by Exhibit A, the required corrected drawings were mailed to the PTO on August 30, 2004. The submission was received by the PTO on September 2, 2004, which is evidenced by the PTO stamp on the return postcard.

As such, Applicants hereby respectfully request grant of the petition and withdrawal of the holding of abandonment for the above-referenced patent application. The corrected drawings (3 color sets of 2 sheets of Figures 1 and 3 plus 1 black/white set of 81 sheets), along with a petition under 37 C.F.R. §1.84 to accept color drawings, are hereby enclosed.

Should the petition to withdraw holding of abandonment not be granted, Applicants petition in the alternative to revive the above-referenced application under 37 C.F.R. § 1.137(b) as unintentionally abandoned for failure to timely file the corrected drawings as required by the Notice of Allowance mailed June 9, 2004. Applicants request revival of the application and authorize payment of the petition fee, pursuant to 37 C.F.R. 1.17(m), in the amount of \$1370.00 for a large entity from Deposit Account No. 20-1430 of the undersigned.

Applicants further state that the entire delay in filing the petition pursuant to 37 C.F.R. 1.137(b)(3), from the final due date for filing the corrected drawings in response to the Notice of Allowance to the filing of a grantable petition, including the delay from the date of discovery of the abandonment of the application, was unintentional.

Applicants further submit a revocation of power of attorney with new power of attorney and change of corresponding address.
